Voltage	240V

The **Light Eye Floor** is a modern eye catching lamp. Constructed from steel and finished in a shiny chrome finish, this fitting will compliment existing contemporary furnishings such as coffee tables, sofas and tiled/laminate floors if located on the floor. It can tilt 90 degrees about its hinge.

The fitting has a round switch for on/off operation. The toughened design allows this to be located on both a table or floor for hand or foot operation. Complete with mains plug and translucent cable to hide the appearance of the wires. Can be used with either mains voltage GU10 or ES111 lamps up to 75W maximum (available separately).
