

**Heat Shrink Sleeving** is used to protect exposed or unsealed wires from dust and water. By using this product on some of our products, you can make the fitting suitable for use outdoors.

This product is 1.2m in length. It has an initial 16mm diameter; this flexibility makes it ideal for use on a variety of different cable diameters. Simply cut the desired length and insert the cable. The heat temperature required for the product to shrink is easily achievable, a hair dryer or heat gun will be more than sufficient. The minimum diameter cable for use with this product is 4mm.
