Dimensions

Length	460mm
--------	-------

For optimum air circulation, ceiling fans should be fitted 2.4m-2.8m above the floor. If the room in which the ceiling fan is installed is greater than this height, a **Down Rod** should be purchased. Please see the technical tab for more information.

This product is available in two different sizes (305mm and 460mm) and a variety of different colours to match your purchased ceiling fan.
