

### FAB D49C0359

250W + 3 x 50W Stainless Steel / White

Quicklink: Q1E65

#### General

Cap	ES / E27, GU5.3 / MR16
Colour	Stainless Steel
Construction	Steel / Polyethylene
IP Rating	IP20
Weight	14.18kg

#### Dimensions

Base Length	300mm
Base Width	300mm
Height	2010mm

#### Electrical

Maximum Wattage	400W (1 x 250W, 3 x 50W)
Voltage	240V

The **Twirl** is a unique colour changing floor light that provides ambient light in a variety of different colours depending on your mood. Constructed from a rotation moulded polyethylene diffuser with a stainless steel mounted base. The square base evolves gradually, turning and rolling up to give the impression of movement.

To cycle between different moods and for optimum comfort, a remote control is also provided. Easily switch the floor stand on/off, remain on one constant colour (red, green, blue or white), change the intensity, regulate the quickness of the colour cycle or automatically cycle through all colours.

This fitting takes two different lamps (available separately). To provide the main ambient light, a 250W E27 lamp is required. Three GU5.3 low voltage halogen lamps are required to colour mix the red, green and blue filters to produce the mood setting effect. An electronic ballast is built into the base of the fitting. Simply connect to mains supply with the plug cord provided.
