

## GLASS 50MM FROST

Frosted 50mm

Quicklink: Q1EBC

### General

Colour	White
Construction	Tempered Glass
IP Rating	IP00

### Dimensions

Depth	2mm
Diameter	50mm

Filters are used in conjunction with halogen low voltage and mains voltage lamps in our broad range of downlights and other fittings to produce unique lighting effects. Measuring only 2mm in depth, this product simply fits between the lamp and the casing of the fitting with no fixing required. Give a new or existing fitting its own character and appearance for a fraction of the cost of buying designer lights.

This filter fits all halogen 50mm lamps and is constructed from tempered glass. Available in clear and frosted glass. A black honeycomb filter is also available in this size.
