

YCA20D BC

BC / B22 20W (=100W)

Quicklink: Q1F06

General

Cap	BC / B22
Construction	Glass
Dimmable	Yes

Dimmable Yes

Dimensions

Diameter	62mm
Length	124mm

Electrical

Energy Efficiency Rating	A
Maximum Wattage	20W
Voltage	240V

Light Characteristics

Colour Rendering Index	81
Colour Temperature	2700K Warm White
Halogen Equivalent Wattage	100W
Lumens	1300 lm
Lumens Per Watt	65 lm/W

This **Dimmable Compact Fluorescent** lamp is the first fully dimmable energy efficient lamp that can be dimmed with Danlers, Eaton, Hamilton and other mainstream dimmer manufacturers. Directly replaces your existing incandescent lamp. Start saving on your energy bills without compromising the dimming control of your lighting!

This lamp can be dimmed using a standard dimmer switch from 2% to 100% brightness and is predicted to save the purchaser more than £100 on energy bills, during its 16,000 hour lifetime, compared with an equivalent 100W GLS lamp. Combining the energy-saving properties of a compact fluorescent lamp with the capacity to dim results in superb energy efficiency calculated to reduce carbon emissions by more than half a tonne with every GLS lamp replaced.

Both the bayonet cap (B22) and Edison screw cap (E27) lamps produce 1200 lumens.
