Weight	12.5kg

Dimensions

Depth	60mm
Height	800mm
Width	450mm

Electrical

Maximum Wattage	28W (2 x 14W)
Voltage	240V

The **Esashi Shaver** mirror light has a stylish borderless design and only 60mm depth, reducing its impact and ensuring greater flexibility in small or narrow bathrooms. Two 14W fluorescent lamps are incorporated into the fitting, providing sufficient light for tasks such as shaving whilst also meeting the requirements of Part L building regulations on the conservation of power. This mirror also has the benefit of an integrated shaver socket on its underside, saving time and expense of installing a separate wall socket (see second image).

This fitting is IP44 rated, allowing for location in bathroom zone 2 (see technical tab). Constructed from steel and glass. An integral electronic ballast and pull cord on the base are included for easy switching. Two 14W T5 fluorescent lamps are included. This fitting is not dimming compatible. A *Magnifying Mirror Attachment* can be purchased separately and installed onto this product.
