IP Rating	IP44
Weight	6kg

Dimensions

Depth	70mm
Height	805mm
Width	500mm

Electrical

Maximum Wattage	25W
Voltage	240V

The **Novara Shaver** mirror light has a stylish borderless design and only 70mm depth (excluding light), reducing its impact and ensuring greater flexibility in small or narrow bathrooms. A small contemporary 25W light is incorporated at the top to reduce shadows and provide sufficient light for tasks such as shaving. This mirror also has the benefit of an integrated shaver socket on its underside, saving time and expense of installing a separate wall socket (see second image).

This fitting is IP44 rated, allowing for location in bathroom zone 2 (see technical tab). Constructed from steel and glass. A pull cord is attached to the base for easy switching and a 25W G9 capsule lamp is included as part of the package. This fitting is not dimming compatible.
