| Lumens Per Watt | 25 lm/W |

The **Niimi Round** adjustable magnifying mirror light is ideal as a separate mirror in any bathroom for applying make-up or shaving due to the five times magnification. Four 1W LED's are incorporated into the fitting to remove shadows for better clarity whilst reducing energy usage.

This fitting is IP44 rated, allowing for location in bathroom zone 2 (see technical tab). An LED driver is contained within the fitting to control the LED lights, which have a warm colour temperature (3000k). Constructed from zinc and glass with two adjustable arms. It is fully adjustable with a swing arm and pivoting head. This fitting is not dimming compatible and has an on/off switch on the base.
