Construction	Aluminium / Steel
Dimmable	Yes
IP Rating	IP20

Dimensions

Cut Out	83mm (Diameter)
Diameter	96mm
Horizontal Rotation	360°
Minimum Ceiling	117mm
Depth	
Vertical Rotation	30°

Electrical

Maximum Wattage	35W
Voltage	12V

The Inferno Adjustable 12V downlight does not require a firehood and is fire rated for up to 90 minutes.

The fitting has many unique features such as a covered safety box for connecting cables and a removable reflector which uses magnetic retention to ensure ease when changing the lamps.

A transformer is required for this fitting. Low voltage halogen lamps are available separately. We recommend the Reflekto Halogen lamps for this product as they reflect heat away from the fitting.
