

KARAOKECOMETKIT1

5W White
Quicklink: Q20DA

General

Cap	GU10
Colour	White
Construction	Aluminium / Plastic
IP Rating	IP00

Music Operation Threshold	>60 dB
---------------------------	--------

Dimensions

Cut Out	75mm (Diameter)
Diameter	95mm
Minimum Ceiling Depth	125mm
Vertical Rotation	30°

Electrical

Maximum Wattage	5W
Transformer	Not Required
Voltage	240V

Light Characteristics

Beam Angle	35°
Lumens	102.5 lm
Lumens Per Watt	21 lm/W

The **Karaoke Comet Kit** combines the sleek Comet downlight with our revolutionary new LED retrofit Karaoke lamp.

Bring the party to your livingroom with a colour change lamp that flashes and strobes to the beat of your music.

The lamp is controlled via an infrared remote powered by a lithium CR2025 battery (included). Simply aim the remote at the light to change light program, light intensity, light colour or simply turn the lamp on/off. A single remote can control multiple lamps.

There are 16 different colours available, all of which have four different levels of brightness. There are also four colour changing programs available. The two standard program modes are Flashing (flashing colour changing, starting on red) and Fade (fast fading colour changing, starting on white). Pressing the up or down buttons in both of these modes increases the speed of the colour changing.

The first of the two music programs sets the currently selected colour to turn on (and off again) at each beat. On the next beat, the lamp will turn on again, producing the next colour in the cycle. No beat, no light! The second music program carries out the same function, although operates in Fade mode when there is no musical beat. The light intensity can be increased/decreased in ten steps during both these musical programs by simply pressing the up or down keys on the remote.

Please note that synchronicity between functions cannot be guaranteed if lamps are located at distances that are not in the line of sight of the remote. For more information on the remote operation, please click on the **Technical** tab.
