Amperage 350mA
Maximum Wattage 3W

Light Characteristics

Beam Angle 15°
Lumens 107 lm
Lumens Per Watt 36 lm/W

The **Crystal Icestar Large RGB** is a decorative LED downlight made from cut glass with a chrome finish base. When illuminated the different facets cast a pattern of light back on to the surface into which the downlight is recessed. The result is a stylish and elegant lighting effect.

The fitting comes with a ceiling spring for fixing into plaster board. A burial tube is supplied for recessing into more solid material, such as brick or concrete.

When used in conjunction with our **Wise Chameleon** pack, the fittings can be controlled wirelessly via a remote control or switch.

A total of 6 of these fittings can be controlled from one **Wise Chameleon** receiver, if more than 6 fittings are required, simply add a slave chameleon pack to allow for an extra 6 fittings. An unlimited number of **Chameleon Slave 350mA 21W** packs can be used with a **Chameleon Master 350mA 21W** pack.
