

TPR/DLPASQ3001 W

50W White
Quicklink: Q22CF

General

Cap	GU5.3 / MR16
Colour	White
Construction	Pressed Steel
IP Rating	IP20

Dimensions

Cut Out	93mm (Diameter)
Depth	93mm
Minimum Ceiling Depth	105mm
Vertical Rotation	25°
Width	93mm

Electrical

Maximum Wattage	50W
Voltage	12V

The **Adjustable Flush Square** is an adjustable downlight with a very small aperture creating a dramatic vertical beam lighting effect ideally suited for lighting objects directly underneath it.

The downlights have a lip so they can be plastered flush with the ceiling giving an ultra modern and minimal look.

The Invisible range has been **designed to be overpainted in Situ** in the ceiling if necessary. The fitting is painted RAL9010 - 30% Gloss level which has a slightly matt surface, to which the emulsion or other paints will adhere to. The finish from the factory is good enough for normal use and will blend in with the most common ceiling finishes. The slightly matt finish on the product will allow it to be carefully repainted to suit any other ceiling colours.
