The **Energy Saver Floodlight** is perfect for use in gardens or driveways where large areas need to be lit. It provides powerful, effective and economical outdoor lighting. It has a built in sensor that automatically switches the light ON and will switch OFF up to 8 hours later or at dawn. Ideal for use at night or for security reasons. An IP44 rating and constructed from durable plastic makes this light, very robust and resistant to different weather conditions.

A 26W compact fluorescent E.S. lamp is included with the fitting. For more information on this product, please click on the technical tab.
