The **Outdoor Twin Gang Combined 13A Socket & 20A DP Switch** is manufactured from tough, durable thermoplastic. It is intended for use in an outdoor environment, or one in which the protection provided by the range is required. It is rated IP55, for protection against water and dust. It will need to be fitted with waterproof cable or conduit entries to maintain their IP rating once installed. This unit combines a dual purpose 13A outlet and separate 20A DP switch for control of lights, pond pumps, fountains and other permanent features.
