Dimensions

Cut Out	100mm (Diameter)
Height	147mm
Plate Depth	35mm
Recessed Depth	96mm

Electrical

Maximum Wattage	9W
Voltage	240V

The **Quiet Air Basic Switching Axial Fan** combines contemporary design with ultra low noise levels and outstanding energy efficiency. It is designed to provide extraction levels in bathrooms and toilets that exceed the requirements of the latest buildings regulations.

As the name suggests, the QuietAir fan is eceptionally quiet with noise levels as low as 25dB(A). Its ECO start function means it is only activated when needed reducing the amount of energy used and therefore saving money. Not only is it discreet on the eye and ear, this fan is also discreet in its impact on the environment. The QuietAir fan consumes 5-9W of power.
