The **Azumi Classic LED Wall** contemporary fitting is completely customisable, mix and match from a choice of three finishes, two shade shapes and two shade colours.

This fitting is the standard Azumi Wall with LED flexible extension, with the **shade available and purchased separately** to allow you to mix and match. The product image above is an example, showing the Azumi Classic LED Wall in bronze with an **Azumi/Momo Round Shade** in white. When purchasing this product, do not forget to order a shade. Shades are available in round or square shapes in both black and white.

Constructed from zinc and finished in bronze. The separately purchased shade is made from high quality fabric. This fitting is dimmable and has a switch on its underside to turn the LED light on and off. A 60W maximum E27 lamp is available separately.
